Discoperi

Ukraine

Automotive

Discoperi saves lives by preventing road accidents and enables drivers to control as well as monitor their data.

Poland has been chosen because it has a great potential both, from the economic and social perspectives, in particular a broad cooperation between corporates and startup, mature network of VCs and funds, large number of skilled people and unique geopolitical position.

Alex Bondarenko, CEO

GameTree

Ukraine & US

Gaming

GameTree helps gamers discover better options, and faster, for friends, games, news, and more. It does this by curating the over-abundance of information in the world of gaming to the individual gamer by considering their personal tastes and psychology with the best recommendation AI in the industry. This is all wrapped in a vibrant, non-toxic, and quickly growing gamer community to create a needed household app for all gamers.

From this program we hope to have a broader access to relevant industry connections as well as personalized advice from accomplished business people who have succeeded in the entrepreneurial journey before.

John Uke, CEO

iDenfy

Lithuania

Fintech

iDenfy is an online identity verification company helping to reduce frauds, makes your business smoother and more profitable, together with complying AML&KYC requirements.

We expect to receive valuable knowledge of Poland market specifics and requirements, also with the help of mentors become prepared to curate and successfully lead international company, expand local network and set up strong partnerships with local companies with the help of Poland Prize.

Gediminas Ratkevičius, CEO

Periodix

Ukraine

Freelance

Periodix automates freelance jobs search and uses AI to predict if the freelancer will get the job. It allows us to select the jobs with the highest chances to be hired for a freelancer.

I'm expecting to find out more about Poland innovation sector and opportunities for RnD.

Danil Yasynskiy, CEO

Scan and Buy

Belarus

Retail

Scan and Buy is a SaaS Digital solution for offline retail. It solves problems of the retailers to understand what the customer wants to buy before coming to the store, can make targeted advertising and personalized promotions for the buyer. We reduce the cost of cashier services and make predictions for warehouse.

We are sure that to start our project in the European market, Poland is the best market. Poland Prize is our best opportunity to quickly start a company in Europe.

Vadim Titov, CEO

SmartVent

Estonia

Green technology

SmartVent is a software solution which allows building managers to take control of their energy use and keep their tenants comfortable. As a cloud based system, it offers immense integration and user experience possibilities.

I'm looking forward to many action-packed months in Poland: mentor and customer meetings, and fundraising in Q3!

Karl Erik Kalmus, CEO

Spottitt

Italy & United Kingdom

Geospatial analytics

Spottitt is the data collection and monitoring system that uniquely matches multispectral satellite imagery to artificial intelligence (AI) to resolve complex problems in the Energy and Infrastructure sector.

Poland Prize represents a unique opportunity for Spottitt to successfully complete its 3-pillar strategy to fully cover the energy market. With the Renewables pillar representing the core of our current commercial offering, we now look forward to Poland Prize's support to finalise our Oil & Gas pillar as well as the Energy-transmission pillar.

Lucy Kennedy, CEO

Walter's Cube

Hungary & US

Virtual reality

Walter's Cube's mission is to eliminate geographic and temporal barriers between exhibitions and audiences. Our goal is to make it possible for any institution or gallery to upload their exhibition into a virtual online museum and reach a global audience.

It is a great honor for us, that we got invited for Poland Prize as one of the most innovative startups among 400+ companies around the world. With this award our goal is to make the polish contemporary art exhibitions available online and introduce them to a global audience. And with the support of Startup Hub Poland we have all the chance to make it happen.

Balazs Farago, CEO

About Startup Hub: Poland Prize

Poland appears to be the country of first choice to conduct business for global talents and high-tech entrepreneurs. To make it happen, **the Polish Agency for Enterprise Development** invited **Startup Hub Poland** to **PolandPrize**, an acceleration program which aims to soft-land and grant top-class startups in Poland.

After months of scouting, recruiting and evaluating, Startup Hub Poland invited to Poland **8 most disruptive startups** out of **400 applications**. Since mid-January 2019, Business Link Astoria hosts finalists of the first season of PolandPrize acceleration program to link best ICT and energy projects with **PGNiG S.A.** - strategic partner of Startup Hub: PolandPrize as well as other Polish leading investors (VCs, BAs, Seeders), corporate partners, policy makers and community leaders.
